- **Storytelling** – It helps students develop critical thinking and creative skills in writing and narration. It also aids in drawing conclusions and making comparisons.
 - **Educational Games** – These make learning enjoyable. They blend knowledge, attitude, and skills while testing students' assumptions and abilities.
 - **Case Studies** – This method enables students to explore and analyse topics. It is useful for encouraging thoughtful discussions.
 - **Brainstorming** – It helps students quickly generate ideas using their imagination and creative thinking.
- Students should inculcate the habit of practising these methods regularly to enhance their life skills.
