

ICSE and ISC Results (year 2019-2020)

Congratulations to the students, their families, and facilitators for achieving high standards of academic excellence!

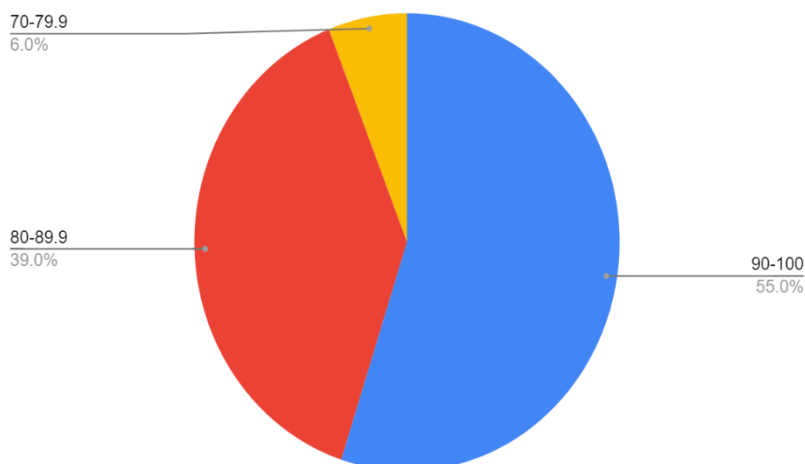

This year 66 students of our 10th batch of Class X and 51 students of the 8th batch of Class XII appeared for the ICSE and ISC examinations respectively.

It's heartening to see that these young minds have followed their interests in performing and visual arts, sports, literary activities and many others while also working steadily on their personal academic goals. Their growth and progress are not limited and cannot be completely captured by the numbers shared below. The maturity of thought, empathy and sensitivity towards the social as well as physical environment, creativity and originality in their expression, in addition to their academic success makes them responsible global citizens of tomorrow.
