Birds migrate from one place to other in search of food and shelter. These birds are known as migratory birds. Certain species of birds such as hens and chickens are domesticated by human beings for eggs, meat and feathers. The average lifespan of a bird is between 2 to 5 years but certain species of birds such as albatross have been known to survive for more than 42 years. **(Para 1)**

Birds can be omnivorous, carnivorous or herbivorous depending on their species and geographical conditions that they are present in. Ravens are one of the most intelligent birds on the planet and are found to mimic human speeches and sound. Eagles are called the king of birds probably because of their predatory behaviour. Due to air and land pollution, some species of birds are getting extinct at an alarming rate. एक दिन तेनालीराम ने देखा कि उसके घर के पास कुछ चोर घूम रहे हैं। वह तुरंत समझ गया कि वे चोरी करने की योजना बना रहे हैं। तेनालीराम ने चोरों को धोखा देने के लिए एक योजना बनाई। उसने ज़ोर से अपनी पत्नी से कहा कि इन दिनों चोरों की संख्या बढ़ गई है। जो भी कीमती सामान है, उसे एक संदूक में भर दो। वह उसे बगीचे के कुँ में छिपा देंगे।

चोरों ने यह बात सुन ली और बहुत खुश हुए। तेनालीराम ने एक बड़ा संदूक लिया और उसमें ईंट और पत्थर भर दिए। फिर उसने उस संदूक को कुँ में फेंक दिया। रात को चोर आए, लेकिन कुँ में उतरने की हिम्मत किसी की नहीं हुई। उन्होंने बाल्टियों से निकालने की सोची और पूरी रात पानी निकालते रहे। सुबह होते ही पकड़े जाने के डर से चोर वहाँ से भागने लगे। तभी तेनालीराम वहाँ पहुँचा और हँसते हुए उन्हें धन्यवाद दिया कि उन लोगों ने उसके बगीचे में सारी रात पानी डाला।
