*Celebrating Nature*

*"He who plants a tree, plants hope!"*

Van Mahotsav is an annual tree planting festival celebrated throughout India to honour and pay respect to the mighty creators and the lungs of Mother Earth.

The same was observed in St. Xavier's High school with great passion. Kindergartners across all the sections were introduced to its importance through a story. The motive was to educate and make a habit for the children to respect and care for the plants. Students went for a nature walk and collected some fallen leaves. The leaves were then pasted on a big tree cut-out with a 'save tree' slogan written on it. The learners were made aware about need for planting and tending trees as one of the best ways to prevent global warming and reduce pollution.

Learners pledged "Plant more trees"

# Community Helpers

It's our constant endeavour to make our teaching innovative and fun. To help the kindergarten children learn about our monthly theme, 'Community Helpers,' different activities were held throughout the month. To wrap up the theme, we organized an interesting 'Role Play' activity. From a cobbler to a hairdresser, a car mechanic to a chef, the teachers dressed up innovatively as various helpers and displayed their tools. The children thoroughly enjoyed interacting with them, asking them questions and learning about each helper's role in the community. We added a fun element of 'Financial Literacy' to make this activity more enriching. The children used fake currency to purchase services from the community helpers, thus introducing them to managing money and understanding its value. Our School Community Helpers such as the carpenter and electrician also participated enthusiastically. Through this hands-on experience, the children learnt the importance of these 'everyday heroes' who make our lives run smoothly.
