

Orientation Programme for the Academic Session 2025-26

Event : Orientation Programme for the Academic Session 2025-26
Date : 26 April, 2025
Organised by : ITL PUBLIC SCHOOL

At ITL Public School, we firmly believe that the journey of education truly thrives when built upon a robust partnership between the school and our parent community. Upholding this core philosophy, we were delighted to host our Orientation Programme for the Academic Session 2025–26 on April 26, 2025, extending a warm and purposeful welcome to all our parents.

This orientation served as a vital platform to harmonize our shared vision for holistic education and communicate crucial updates for the upcoming academic year. It was a significant opportunity to reaffirm our unwavering commitment to cultivating an enriching and future-ready learning environment for our students, meticulously aligned with the transformative goals of the National Education Policy 2020 (NEP 2020).

As we often say, "When schools and families walk together, every step becomes a stride towards a brighter future." During the session, parents received comprehensive insights into our academic frameworks, including key pedagogical approaches and assessment methodologies. We also highlighted the diverse co-curricular opportunities available, from sports and arts to various clubs, emphasizing their pivotal role in fostering well-rounded development. Furthermore, the school's student well-being initiatives and essential communication protocols were clearly outlined, ensuring a strong foundation for the year ahead. The spirit of collaboration, clarity, and connection resonated throughout the programme.

With a renewed sense of purpose and unity, ITL Public School eagerly anticipates another year brimming with learning, growth, and meaningful collaborations with our exceptionally supportive parent community.
