

SUMMER DRINKS FESTIVAL

Date- 17th April, 2025

Venue- ITL Public School

Organized by – Students of Class XII

Beat the Heat the Traditional Way!

ITL Public School organized 'Tradition in a Glass- A Summer Drink Fest!' To beat the heat.

India's story is one of remarkable diversity- a land where language and culture shift every few hundred kilometers, and where every region offers not just a new dialect, but a new flavor, a new ritual, and a unique way of living. With 22 official languages and over 19,000 dialects, our beverages, like our words, speak of history, tradition, and connection to the land.

Among the many treasures passed down through generations are the heritage drinks of India like cooling Aam Panna from the north, spiced Rasam from the south, the nutrient-rich Gond Katira from Rajasthan. To drink Kanji or Panakam is not just to hydrate, but to participate in centuries of culinary storytelling, carried across generations and tongues.

Students of Class XII prepared and demonstrated the wide range of drinks in the summer season. Students learnt multilingualism and multiculturalism as they sipped and savored the refreshing flavors of the traditional Indian drinks like Sattu, Chaas, Tanka Torani, Gond Katira sherbet, Aam Panna in the premises of ITL Public School.

A Heritage drink festival organized by students of Class XII helped escape the heat and rediscover our delicious and healthy sips of India for healing, celebration and our daily nourishments.
