Dear Parent

At Delhi Public School, Rohini, we believe in nurturing every facet of a child's development—intellectual, emotional, physical, and social. Our mission is to create an inclusive environment where students are empowered to explore, learn, and grow together.

As part of our continuous efforts to enrich student experiences, we are excited to introduce a new initiative for the students of classes IV to VIII- **'Project Read Together'** that integrates reading into our educational framework. This summer, students embark on a transformative journey where they will pair up with fellow students to read, learn, and grow together. Through this initiative, we aspire to take another step forward in our mission to support every child's growth, ensuring that learning is not just about acquiring wisdom or a leisure activity but also about experiencing the joy of discovery and personal development.

Regards

Principal
