

## LITTLE ORATORS

**ACTIVITY: English Recitation**

**DATE: 18 July 2025**

**CONDUCTED BY: Prep Classes**

The Prep students lit up the assembly area with their cheerful presence during a fun-filled English Recitation Activity. One by one, our tiny tots stepped forward—some with props, others with gestures—and confidently recited their favourite rhymes in front of their classmates and teachers.

The children were encouraged to express themselves freely, using tone, expression, and action to bring their rhymes to life. Holding the microphone and performing on stage helped them build early public speaking skills and boosted their confidence in a nurturing and supportive environment.

It was heartwarming to see their enthusiasm, creativity, and growing self-assurance on display. This joyful activity not only developed their speaking and listening skills but also sparked a love for language and performance from a young age.
