

## PLAYGROUND JOY

**ACTIVITY: Shooting with the Sunny Ball**

**DATE: 21 July 2025**

**CONDUCTED BY: PreSchool**

Our little ones had an absolute blast during their outdoor play session with a lively game called **Sunny Ball Shooting**. The bright yellow ball added a burst of sunshine to the playground as each child took turns **kicking it with excitement**, while their classmates giggled and joyfully tried to **block the ball**.

The activity was more than just fun—it helped children develop **gross motor skills**, **coordination**, and a sense of **teamwork**. The playground echoed with laughter and cheers, creating a positive and energetic atmosphere where every child felt included and active.

It was a delightful blend of **movement, joy, and learning through play**, making it a memorable day for our preschoolers!
