DATE: 14 July 2025

CONDUCTED BY: Primary Classes 3-5

A Reading Adventure: Exploring Worlds Through Words

Students recently embarked on a fun-filled **reading adventure**, diving into the magical world of stories in different ways. While some explored a variety of tales and characters on the digital platform *StoryWeaver*, others enjoyed reading from their favorite **storybooks**, flipping through pages with curiosity and joy.

This interactive activity not only encouraged children to **read with excitement**, but also inspired them to **imagine new worlds**, connect with diverse characters, and dive deeper into the joy of storytelling. As they turned digital pages, they strengthened their **reading comprehension**, **vocabulary**, and overall **language skills**.

The blend of digital and traditional reading experiences made the activity truly special—nurturing both imagination and literacy, and helping students build a strong connection with the world of words.
