

WORLD ZONNOSES DAY

EVENT: Assembly on World Zoonoses Day

DATE: 15 July 2025

CONDUCTED BY: Class 7B

Awareness Assembly on World Zoonoses Day

In accordance with the directions from the **National Centre for Disease Control (NCDC), Delhi**, an **awareness session** was conducted at **Bloom Public School** during the morning assembly to observe **World Zoonoses Day**.

The assembly was **student-led**, with participants sharing valuable information about **zoonotic diseases**—infections that can be transmitted from animals to humans. Through thoughtful presentations and informative speeches, students highlighted the importance of maintaining hygiene, ensuring responsible interaction with animals, and understanding preventive measures to curb the spread of such diseases.

The session aimed to promote **awareness, responsibility, and precautionary habits** among the school community. It also provided an excellent platform for students to take initiative and become informed ambassadors of public health.

This meaningful initiative reinforced the significance of being proactive and informed in promoting health and safety—for ourselves and the society at large.
