

TINY PRINTS, BIG SMILES

ACTIVITY: Tactile Fingerprinting Activity

DATE: 31 July 2025

CONDUCTED BY: Pre School

The little artists of **Preschool** had a colorful and sensory-filled day during their **Tactile Fingerprinting** activity! One finger at a time, children dipped into vibrant paints and joyfully created **happy face impressions** on paper.

This hands-on experience encouraged children to explore different **textures and colors** using their sense of **touch**, enhancing their **fine motor skills, creativity, and sensory awareness**. With every dab, swirl, and giggle, they created cheerful faces that were as expressive as their own.

The activity was a perfect blend of **art and early learning**, turning tiny fingertips into tools of joy and imagination.
