

## CRAFTING THE PAST

**ACTIVITY: Clay Modelling Activity – Exploring the Harappan Legacy**

**DATE: 4 August 2025**

**CONDUCTED BY: Class 6A and 6B**

To deepen their understanding of the **Harappan Civilization**, students of **Classes 6A and 6B** engaged in a creative and immersive **clay modelling activity**. Inspired by real **Harappan artifacts**, students crafted miniature models such as seals, pottery, tools, and figurines—bringing the ancient civilization to life through their hands.

The activity gave students a unique **hands-on experience** of the artistic and cultural brilliance of the Indus Valley people. As they shaped the clay, they also reflected on the **advanced craftsmanship, urban planning, and daily life** of one of the world's oldest civilizations.

This art-integrated approach not only made learning **interactive and fun**, but also instilled a deeper appreciation for **India's rich historical heritage**.
