

## NUMBER NINJAS

### **ACTIVITY: Wordwall – Ordering Numbers**

**DATE: 26 August 2025**

**CONDUCTED BY: Class 1**

Students of Class 1 enthusiastically participated in a fun and interactive **Wordwall activity**, where they arranged numbers in the correct order up to 9. The activity provided a hands-on experience that helped young learners strengthen their understanding of number sequencing in an enjoyable way.

Through this engaging session, children practiced arranging numbers in ascending order, which reinforced their counting skills and improved their observation and sequencing abilities. The interactive nature of Wordwall made the learning process lively and exciting, turning what could have been a routine task into an enjoyable challenge.

This activity not only enhanced number recognition but also promoted active participation and curiosity among students, making mathematics a joyful and meaningful experience.
