

## Mathematics: Chapter 3-Angles and turns

|     |  |
|-----|--|
| Q1. | <p><b>True or False</b></p> <ol style="list-style-type: none"> <li>1. A door knob works without turning. (_____)</li> <li>2. A screwdriver is used by turning it round and round. (_____)</li> <li>3. A gas stove knob can only be pushed, not turned. (_____)</li> <li>4. The fan regulator involves turning to change speed. (_____)</li> <li>5. A key opens a lock by turning inside it. (_____)</li> </ol> |
| Q2. | <p><b>Fill in the blanks</b></p> <ol style="list-style-type: none"> <li>1. We turn the _____ to open or close the flow of water.</li> <li>2. To unlock a door, we turn the _____.</li> <li>3. A car changes direction when we turn the _____.</li> <li>4. To open a cold drink bottle, we turn the _____.</li> <li>5. The hands of a _____ keep turning all the time.</li> </ol>                               |
| Q3. | <div style="text-align: center;">  </div> <p>Look at the picture and identify the different angles as acute, obtuse and right angles.</p>   |
| Q4. | <p>Draw the angles formed by the following turns in your notebook.</p> <p><math>\frac{1}{2}</math> turn, <math>\frac{1}{4}</math> turn, <math>\frac{2}{4}</math> turn, <math>\frac{1}{6}</math> turn, <math>\frac{4}{6}</math> turn, <math>\frac{3}{12}</math> turn, <math>\frac{1}{2} + \frac{1}{4}</math> turn, and <math>\frac{1}{8} + \frac{1}{6}</math> turn.</p>   |
| Q5. | <p>Guess the measure of turns the minute hand of a clock makes in each of the following cases. The initial position of the minute hand is given. Draw the final position of the minute hand on the clock face.</p>   |

a) When the minute hand moves by 15 minutes,  
it has made a \_\_\_\_\_ turn of the circle.

b) When the minute hand moves by 30 minutes,  
it has made a \_\_\_\_\_ turn of the circle.

c) When the minute hand moves by 45 minutes,  
it has made a \_\_\_\_\_ turn of the circle.

d) When the minute hand has turned a full-circle,  
it has moved by \_\_\_\_\_ minutes.

|     |                    |   |                  |
|-----|--------------------|---|------------------|
| Q6. | Complete the table |   |                  |
|     | Starting direction | Turns   | Ending direction |
|     | North              | 3 right turns ,clockwise  |                  |
|     | East               | 2 right angles, anticlockwise   |                  |
|     | West               | 1 right angle, clockwise, $\frac{1}{2}$ right angle anti-clockwise, $\frac{1}{2}$ right angle clockwise |                  |
|     | South              | 3 right angle clockwise, 2 right angle anti-clockwise   |                  |

Q7.

Look at the picture carefully. Padma is standing in the middle of the market. Answer the following questions:

1. Padma is facing the **toy shop**. What place will she face if she takes a **half turn clockwise**?
2. If Padma is facing the **bookstore**, what place will she face if she takes a **right turn, clockwise**?
3. If Padma is facing the **ice-cream cart**, what place will she face if she takes a **half turn anti-clockwise**?
4. If Padma is facing the **parking area**, what place will she face if she takes a **left turn**?
