

FRENCH LEARNING MADE EASY

ACTIVITY: Online French Worksheets

DATE: 10 September 2025

CONDUCTED BY: Class 6

Students of Class 6 engaged in an **interactive revision session** during their French class. They practiced through **online activities on the panel**, which made learning both engaging and effective.

To strengthen their **spoken French skills**, students repeated two paragraphs after listening to them twice as spoken by the teacher. This exercise helped them work on **pronunciation, intonation, and fluency**, while also building confidence in oral expression.

The session proved to be a wonderful blend of **technology and practice**, making French learning lively, interactive, and enjoyable for the students.
