

## TULIPS OF JOY

**ACTIVITY: Paper Folding**

**DATE: 10 September 2025**

**CONDUCTED BY: Pre School**

Our preschoolers had a delightful time creating **colorful tulip flowers through paper folding**. Guided step by step, the children carefully folded bright sheets of paper to bring their tulips to life. This hands-on activity not only enhanced their **fine motor skills and hand-eye coordination** but also encouraged **patience, concentration, and creativity**.

The joy on their faces was evident as they proudly displayed their beautiful paper tulips. Activities like these nurture a sense of accomplishment while making learning **fun, engaging, and artistic**. The classroom truly bloomed with the charm of these little paper flowers and the enthusiasm of our young creators!
