Subject: Health Advisory – Avoid Sending Students with Fever or Contagious Illness to School

Dear Parents,

This is to inform you that several cases of fever and other contagious illnesses have been observed among students in recent days. In order to ensure the health and safety of all children and staff members, we request you not to send your ward to school if he/she is suffering from fever, cold, cough, HFMD, conjunctivitis, or any other contagious disease.

Your cooperation in keeping unwell children at home until full recovery will help prevent the spread of infection and maintain a healthy learning environment for everyone.

A medical fitness certificate will be required for HFMD before the child rejoins school after recovery.

We appreciate your understanding and support in this matter.

Principal
