Circular (III – XII)

Dear Parent

Electronic Waste (E-waste) is one of the fastest growing segments of our nation's waste stream. It includes all broken, unusable or outdated/obsolete electronic devices, components, and materials. E-waste contains potentially harmful components such as lead, cadmium, beryllium, mercury, arsenic etc. Exposure to these harmful components can have a severe impact on human life. It is important that we all work towards reducing e-waste and ensure adoption of safe methods for its recycling and disposal.

DPS Rohini is organizing an **E-waste collection drive** on **Friday, 17 October 2025**. **EWRI**, India's leading E-Waste Recycler Management Company will setup their Kiosk near the Main Gate (Gate No. 1) in the Main School Building. We request you to be a part of this initiative and bring e-waste (old/obsolete/unusable cell phones, chargers, cameras, monitors, power banks, game consoles, wires etc.) to ensure their safe disposal.

Looking forward to your support.

Principal
