

READ, LEARN, AND GROW!

ACTIVITY: Read Along Activity on Interactive Panel

DATE: 13 October 2025

CONDUCTED BY: Class 5 English Club

A *Read Along* activity was conducted in Classes 5A, 5B, and 5C during the Circle Time period, where students joyfully explored stories of various genres using the *Read Along* feature on Google Classroom.

The activity allowed students to make use of features like **tap-to-pronounce** for difficult words and **voice feedback** for accurate reading, enhancing their **fluency, pronunciation, and confidence**. The **interactive interface** and **progress badges** kept them motivated throughout, transforming reading into an enjoyable and rewarding experience.

It was a delightful session that strengthened students' love for reading while building essential language and comprehension skills.
