

TRASH TO TREND

ACTIVITY: Designing of Outfits out of Waste Material

DATE: 28 October 2025

CONDUCTED BY: Class 6 Eco Club

Students of **Class 6 Eco Club** participated in an exciting and creative activity where they designed unique outfits using waste materials. With newspapers, old magazines, cardboard, and leftover fabric, they crafted dresses, accessories, and costumes that showcased both imagination and environmental awareness.

The activity encouraged students to think innovatively about recycling and sustainability while understanding the importance of reusing materials to reduce waste. Their enthusiasm and teamwork made the session both fun and inspiring, turning waste into wonderful fashion!
