

INTER-HOUSE RANGOLI MAKING COMPETITION

EVENT: Rangoli Making Competition on the themes “Innovation Meets Technology”

DATE: 29 October 2025

CONDUCTED BY: Students of Classes 6-11

The school organised an exciting Inter-House Rangoli Making Competition where the four houses—**Alpha, Beta, Gamma, and Delta**—showcased their artistic brilliance under the unique theme “**Innovation Meets Technology.**”

Students creatively blended traditional rangoli art with modern technological concepts such as robotics, AI, space exploration, digital circuits, and futuristic designs. Each rangoli beautifully represented how innovation and technology are shaping our world, all while preserving the elegance of traditional Indian art forms. Teams worked with great enthusiasm and coordination, using vibrant colours, geometric patterns, and symbolic motifs to bring their ideas to life. The competition encouraged not only creativity but also conceptual thinking, teamwork, and visual storytelling.

The event was a delightful fusion of culture and modernity, leaving everyone inspired by how art can express the evolving world of technology in such a colourful and meaningful way.
