

COUNTING EXPRESSWAY

ACTIVITY: Math Buzz Activity

DATE: 24 October 2025

CONDUCTED BY: Class 2A

Class 2A had a fun-filled **Math Buzz Activity** focused on learning number sequences in tens. Children decorated a colorful train, with each coach displaying numbers in sequence, helping them visualize and reinforce their understanding of counting by tens. The hands-on activity not only enhanced their number sense but also encouraged creativity, teamwork, and active participation. By combining learning with art, students thoroughly enjoyed the process of building their “Number Train” while strengthening their mathematical skills.
