“DIRECTIONS FOR TRAINING (Batch 2020-2025)”

Date: 25th April 2024

Organized by – TP CO-ORDINATOR

Training is an integral part of the curriculum, providing an experience that enhances a student's academic, career, and personal development. An orientation session organized by the Training and Placement Cell Coordinators on **“Directions for Training”** was conducted for the fourth-year batch students applying for internships. Although short in duration, the session proved to be highly effective.

The primary aim of the session was to explore the challenges faced by students during the three main stages of the training period: **Pre-Internship, During Internship, and Post-Internship**, and to provide strategies to overcome them.

The brainstorming session concluded successfully with a discussion on the benefits of the internship period for their career. Students were briefed about all necessary documents and made to understand the importance of **professional behavior and ethics** during internships. Adhering to good behavior and professional ethics ensures that students maximize their internship experience and serves as a reflection of their commitment and professionalism.
