

REPORT OF ENTITY CLUB ACTIVITY
SESSION: 2025-2026

Name of the Activity : First Aid Box Preparation
Day & Date : Wednesday, 20 August 2025
Class : VI
Teacher Incharge : Ms. Kumari Shalini
Activity Incharge : Ms. Kumari Shalini

Objectives: To enable the learners to:

- identify and understand the essential items of a first aid box and their specific uses in handling common injuries or emergencies.
- demonstrate the ability to arrange and organize first aid materials systematically in a box for quick and effective use.
- relate basic health and hygiene concepts with real-life applications of first aid in schools, homes, and public places.
- analyse different emergencies and suggest which items from the first aid box would be useful in those cases.
- develop a sense of responsibility, empathy, and preparedness to provide timely help during accidents, promoting a safety culture in their surroundings.

“An ounce of prevention is worth a pound of cure.”

—Benjamin Franklin

A Glimpse of the Event

The **Entity Club of MBS International School** organized a creative and informative activity on *First Aid Box Preparation* for the students of **Grade 6** on **20th August 2025**. The activity aimed to enhance students' knowledge about health, hygiene, and the importance of preparedness in times of emergencies.

The session began with a short introduction by the teacher-in-charge, highlighting the significance

of first aid in daily life. Students were then guided to prepare their own first aid boxes using simple materials. They collected and arranged essential items such as band-aids, cotton, antiseptic solution, scissors, adhesive tape, sanitizers, gauze, and an instruction sheet. Each student ensured that the items were neatly organized, labeled, and placed systematically.

The activity encouraged students to understand the use of each item and its role in providing immediate care during accidents. Many participants displayed creativity by decorating their boxes attractively while maintaining practicality. Teachers appreciated the enthusiasm, teamwork, and awareness demonstrated by the young learners.

Through this hands-on learning experience, students not only gained practical knowledge of first aid but also developed a sense of responsibility, empathy, and preparedness. The activity successfully met its objective of promoting health awareness and safety consciousness among children.

Overall, the event was a meaningful initiative by the Entity Club, which left the students more confident about handling minor medical emergencies with care and presence of mind.

Parameters/ Judgement criteria

1. Completeness & Accuracy of Materials
2. Organization & Practical Utility
3. Creativity & Presentation
4. Knowledge & Awareness

Result

S.NO	Students Name	Class	Positions
