A Glimpse of the Event

Objectives: To enable the learners to

- describe the importance of trees in maintaining ecological balance, reducing pollution, and supporting biodiversity.
- develop a sense of responsibility and a proactive attitude toward protecting and nurturing green spaces within the school and community.
- demonstrate how to properly plant saplings and care for them by understanding basic requirements such as sunlight, water, soil, and space.
- plan and execute the campaign and enhance their ability to work in teams, delegate tasks, and follow a common goal.
- analyze the effects of deforestation and unplanned urbanization on climate change and local weather patterns.

“Someone’s sitting in the shade today because someone planted a tree long time ago”
— Warren Buffett

The Canopy Campaign was successfully organized within the school premises of MBS International School with enthusiastic participation from Grade 8 students. Held on 16th April 2025, the campaign aimed to raise awareness about the importance of green cover and environmental conservation. Students actively took part in planting saplings around the campus, under the guidance of their science teacher and the school gardener. Prior to the plantation drive, students prepared an informative presentation promoting tree plantation and sustainability. A brief session on the significance of trees in maintaining ecological balance was also conducted. This hands-on initiative helped students develop a sense of responsibility towards nature and understand the role of trees in combating climate change. The event concluded with a photographic session of students. The campaign was both educational and impactful, leaving a lasting impression on young minds.
