

TECHNOLOGY DAY AT BLOOM - DAY 3

EVENT: Technology Day at Bloom

DATE: 6 November 2025

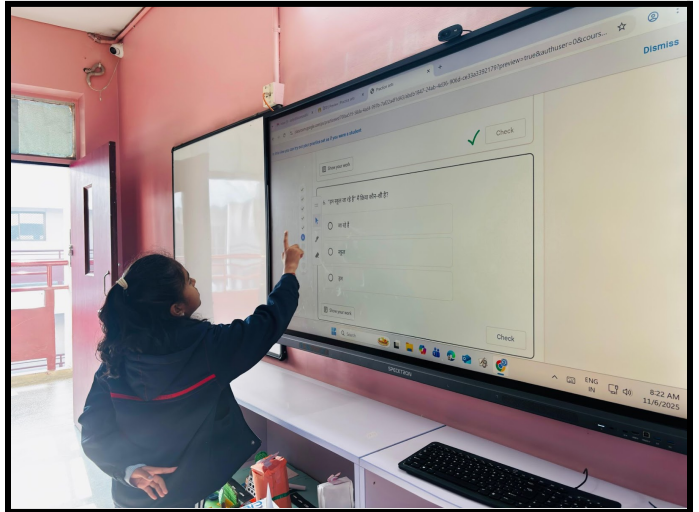

CONDUCTED BY: Class 5

Class 5 students celebrated **Technology Day** with great excitement and enthusiasm, showcasing their growing confidence in using digital tools for learning. The session began with students using the **interactive panel** to solve practice sets, check answers instantly, and engage with interactive video-based activities. These hands-on tasks made learning enjoyable while strengthening their digital skills.

Students also spoke a few lines about the **importance of technology** in daily learning and confidently shared how they effectively use **Chromebooks** during their regular classes. They proudly presented the **Google Slides** created by them, explaining the different features they used while designing their presentations. Additionally, they highlighted the usefulness of **Google Docs**, especially for writing tasks, editing, and collaboration.

The celebration concluded with an exciting visit to the **Robotics section**, where students observed robots designed by senior students. This experience fascinated them and ignited a deeper interest in innovation, problem-solving, and technology.

Technology Day proved to be a memorable and inspiring experience for Class 5, encouraging curiosity and confidence in their digital learning journey.

CONDUCTED BY: Class 2

Technology Day was observed in **Class 2** with **great enthusiasm and curiosity**. Students actively explored and used the **Interactive Panel**, engaging confidently with various digital tools such as **ReadAlong, Practice Sets, Interactive Videos, and ActiveInspire applications**. These hands-on activities helped the children understand how technology can make learning exciting, enjoyable, and more meaningful.

The highlight of the day was the **parent visit**, where parents had the opportunity to watch their children independently operate digital tools. They were delighted to see how confidently and skillfully the young learners navigated the activities, demonstrating their growing comfort with technology in the classroom.

Technology Day in Class 2 truly showcased how digital learning enhances understanding, builds confidence, and creates a joyful learning environment.
