DPSKP-V/2025-26/Circular/213

CIRCULAR

Dear Parents and Alumni,

We are pleased to share an exciting national initiative conducted by SPACE India, India's leading organisation in astronomy and STEM education, in collaboration with the Space Exploration and Research Agency (SERA) — the Global Astronaut Selection Campaign.

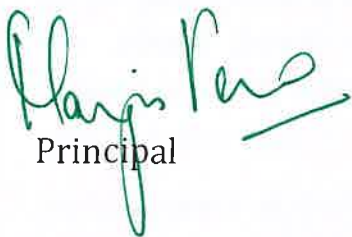

This pioneering campaign offers Indian citizens a chance to experience a real astronaut selection process through SERA Mission Control, a gamified online platform featuring astronaut-style challenges, leadership tasks, and space-based missions. Eligible participants (18+ years) may even advance toward a potential spaceflight opportunity aboard a future Blue Origin mission.

Although school students under 18 are not eligible to register, we encourage parents and alumni to explore this unique opportunity for themselves or share it with eligible friends and family. Students, especially in senior classes, are also encouraged to learn about astronautics and consider future careers in STEM and space fields inspired by this initiative.

More information and the Campaign Handbook will be shared along with this circular.

Let us inspire and support India's future space pioneers — together we take one step closer to the stars!

Warm Regards,

Principal

SCHOOL CIRCULAR

Global Astronaut Selection Campaign – India Edition

In Collaboration with SPACE India & SERA

Dear Parents and Alumni,

We are pleased to share an exciting national initiative conducted by **SPACE India**, India's leading organisation in astronomy and STEM education, in collaboration with the **Space Exploration and Research Agency (SERA)** — the **Global Astronaut Selection Campaign**.

This pioneering campaign offers Indian citizens a chance to experience a **real astronaut selection process** through **SERA Mission Control**, a gamified online platform featuring astronaut-style challenges, leadership tasks, and space-based missions. Eligible participants (18+ years) may even advance toward a **potential spaceflight opportunity aboard a future Blue Origin mission**.

Although school students under 18 are not eligible to register, **we encourage parents and alumni** to explore this unique opportunity for themselves or share it with eligible friends and family. Students, especially in senior classes, are also encouraged to learn about astronautics and consider future careers in STEM and space fields inspired by this initiative.

More information and the Campaign Handbook will be shared along with this circular.

Let us inspire and support India's future space pioneers — together we take one step closer to the stars!

Warm

Regards,

Principal
