

ENSURING A SAFE CAMPUS

EVENT: School Safety Walk with Parents

DATE: 26 November 2025

A **School Safety Walk** was conducted today with the active participation of parents, providing them with a clear and reassuring insight into the safety measures implemented across the campus. The walk was guided by Class 12 Student Council members **Amaira Pant** and **Ashu**, who confidently led the parents through various safety installations and protocols. Their leadership and clear explanations made the tour both informative and engaging.

During the comprehensive walkthrough, parents observed key safety features including:

- **Outdoor area carpeting** designed to prevent slips and falls
- **Secure gate systems** ensuring controlled and safe entry and exit
- **Fire safety infrastructure**, such as extinguishers and details on emergency drill procedures
- **Anti-skid strips** and **directional arrow markings** on staircases to support safe student movement
- **Laboratory safety measures**, highlighting safe equipment use and emergency protocols

The experience allowed parents to witness firsthand the school's strong commitment to creating and maintaining a safe, well-monitored, and student-friendly environment. The Safety Walk was appreciated by parents and reinforced the school's dedication to ensuring the well-being of every learner on campus.
