Invigilator's Sign:\_\_\_\_\_

#### General Instructions:

1. This question paper consists of three sections.
2. Read the question paper carefully.
3. All the questions are mandatory.

	SECTION – A
1	<p>Multiple choice questions:</p> <p>a) The length of your classroom is best measured in _____. i) <math>m</math>                      ii) <math>km</math>                      iii) <math>cm</math>                      iv) <math>kg</math></p> <p>b) A milk packet contains 1 litre of milk. It is equal to _____ millilitres. i) 1                      ii) 10                      iii) 100                      iv) 1000</p> <p>c) Half <math>kg</math> = _____ grams i) 1                      ii) 1000                      iii) 50                      iv) 500</p> <p>d) Which of the following objects will have the greatest mass? i) A book                      ii) A marble                      iii) A sack of rice                      iv) A spoon</p>
2	<p><b>CASE BASED QUESTION:</b></p> <p>A bar of chocolate is divided into 12 equal parts. Aarav ate 4 parts, Meena ate 2 parts, and the rest were kept in the fridge. Based on above information answer the following questions:</p>

- a) What fraction of the chocolate did Aarav eat?
- b) What fraction did Meena eat?
- c) What fraction was kept in the fridge?
- d) Who ate the greater fraction?

### SECTION-B

3

Compute the following:

i)  $\frac{1}{2}$  of 30 packets.

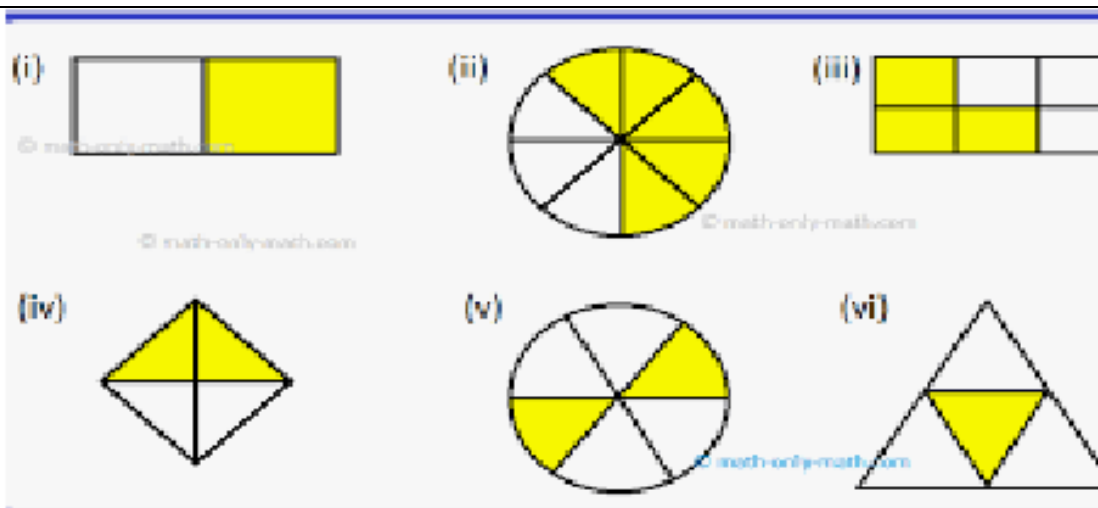

ii)  $\frac{1}{3}$  of 27 beads.

iii)  $\frac{1}{4}$  of 20 toffees.

### SECTION – C

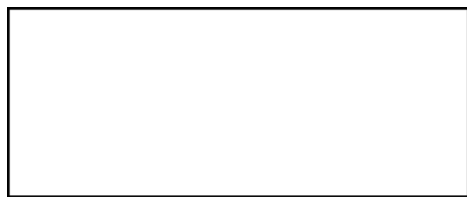

4

a) Write the fractions for the shaded parts:

b) i) How many  $\frac{1}{4}$  makes a whole.

ii) Divide the given figures into one –fifth by drawing lines.

c) Arrange in ascending order:

$$\frac{3}{14} ; \frac{1}{14} ; \frac{2}{14} ; \frac{5}{14} ; \frac{8}{14}$$

5

a) Draw the following line segments:

i) 5 cm      ii) 4 cm

b) Convert the following:

i) 127 cm into m and cm.  
ii) 3 m 24 cm into metres.

c) Find the perimeter of the given shapes:
