

STUDENT CAREER FAIR (GRADES 9 to 12) 27 OCTOBER 2023

INTENT: Credence is committed to quality education and in its pursuit of academic excellence, a Student Career Fair was organised on Friday, 27th October 2023 at the school auditorium for in-house students and parents of Grades 9-12. The primary aim of the Career Fair was to provide high school students with valuable insights into various educational paths, career options and professional networking opportunities.

EXPERIENCE: More than 30 educational institutions (Colleges/ Universities from UAE and across the globe) representing diverse fields, including technology, healthcare, finance, tourism, logistics and retail, participated in the event in addition to a couple of educational consultants. These educational institutions and educational consultants set up interactive booths to showcase their services and orient the beneficiaries about the multiple career opportunities available across the globe. Through these interactive booths, students and parents had the prospect to network with representatives which in turn aided them to get acquainted with different academic programs, admission requirements, scholarship opportunities available at various Universities and seek information on the best fit for their career aspirations.

INSIGHT: Undoubtedly, the Student Career Fair had a significant impact on students as they gained a better understanding of various career paths, educational requirements and potential job opportunities. Several students articulated increased motivation and clarity regarding their future career goals after participating in the Career Fair. Feedback from the parents was overwhelmingly positive as many of them expressed appreciation for the initiative taken by the school to organise this worthwhile, informative and engaging event. To highlight, the Student Career Fair did foster a sense of community as well by strengthening the school's ties with local educational institutions and educational consultants.

Succinctly, the Student Career Fair held at Credence High School was a resounding success, offering valuable insights and opportunities to both students and participating organizations. The event helped students make informed decisions about their future career paths and served as an avenue for educational institutions and educational consultants to connect with the next generation of talent. Given the scenario, there is a strong case for continuing to support and guide our students in their career aspirations through conduct/ participation in various career related workshops, programmes and events throughout the academic year.
