

The Education USA's Insights – Webinar

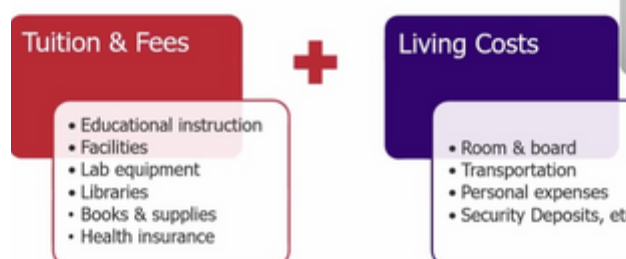

Grade: 9–12

Day & Date: Sunday, 29th September 2024

INTENT: Galvanize Global Education, hosted an insightful webinar for students in grades 9 to 12, offering valuable guidance on planning their academic futures. Led by Ms. Shanthi Mohan, an EducationUSA advisor from the U.S.I.E.F Center, the session focused on simplifying the process of pursuing higher education in the U.S. Held on Sunday, 29th September 2024 via Zoom, the webinar saw active participation from teachers, who will further support students in applying the knowledge gained.

Cost of Attendance

Costs vary based on school type, location and program. Effective research and planning can make education in U.S. affordable.

Cost of attendance can range between 35,000 USD upwards depending on the type of institution, program and location.

EXPERIENCE: The teachers had a great experience and found it very helpful to guide the students to apply to abroad colleges and find scholarships. They learned a lot about the U.S. education system. Overall, the webinar was a fantastic opportunity for teachers to improve their support and help students make smart choices about their futures.

INSIGHT: The teachers received valuable insights into the complexities of studying abroad, particularly in the U.S. education system. They gained a clearer understanding of the admissions process, scholarship options, and the resources available to students. This knowledge empowers teachers to better assist the students, ensuring they can make informed decisions about their academic futures.
