

## CH-22 CLEAN SURROUNDINGS

### ASSIGNMENT NO. 1

**SUBJECT: EVS**

**CLASS-IV \_\_\_\_\_**

**JANUARY, 2025**

**NAME: \_\_\_\_\_**

**DATE: \_\_\_\_\_**

#### **Q1. Tick the correct option:**

1. Dirty environment is full of \_\_\_\_\_ which may cause many diseases.

- (i) germs      (ii) dirt      (iii) litter      (iv) dirty water

2. \_\_\_\_\_ affects our mind and body.

- (i) air      (ii) environment      (iii) fresh air      (iv) none of these

3. \_\_\_\_\_ means to generate lesser waste.

- (i) reduce      (ii) refuse      (iii) recycle      (iv) all of these

#### **Q2. Write 'T' for True and 'F' for False statements.**

1. Synthetic things like plastics and glasses do not decompose.

2. Disposal of waste water should be through uncovered drains.

3. Use of non-biodegradable materials should be avoided.

**Q3. Write any three ways by which you can keep your environment disease-free.**

**Q4. Define hygiene.**

**Q5. Assertion and Reasoning Based Question:**

**Assertion: Disposal of solid waste can be done by putting it into compost pits.**

**Reason: It turns into manure after sometime and farmers can use it for growing crops.**

**A**

A is true but R is false.

**B**

A is false but R is true.

**C**

Both A and R are true and R is the correct explanation for A.

**D**

Both A and R are true but R is not the correct explanation for A.

**Q6. Read the following and answer the questions.**

Biodegradable things are the materials that can easily break down in nature by the action of air, water and tiny living organisms. Things like vegetable peels, fruit waste, paper, leaves etc mix with the soil and make it fertile. Non=biodegradable things that do not break down easily and remain in the environment for a long period of time like plastic bags, glass bottles, metal cans etc. cause pollution and harm plants and animals too.

Q1. What are biodegradable things? Give examples also.

Q2. Plastic bags and glass bottles are the examples of \_\_\_\_\_ things.
