This image shows a full page of blank, cream-colored paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page, providing a template for handwriting practice or general writing. There are no margins, text, or other markings on the page.

READING

Q11. Read the passage given below and answer the following questions.

Pickles have been an important part of traditional meals in many cultures for centuries. They are usually made by preserving fruits or vegetables in oil, salt, vinegar, or spices. This process not only increases their shelf life but also enhances their flavour. In many households, pickle-making is a family activity carried out during summer, when raw materials are easily available.

Pickles add taste and variety to simple meals and are often eaten in small quantities. Some pickles also have digestive benefits because of the spices used in them. However, eating too much pickle can be harmful, as excess salt and oil may affect health. Therefore, pickles should be enjoyed in moderation as a tasty addition to food rather than a main dish.

In recent times, pickles have also gained popularity in markets and food stores. Many people prefer homemade pickles because they are fresh and free from artificial preservatives. Pickle-making also helps preserve traditional recipes and passes cultural values from one generation to another.

I. Answer the following questions in one sentence.

A. How are pickles usually preserved?

B. Why is pickle-making often done during summer?

C. Why do many people prefer homemade pickles?

II. In what quantity should pickles be eaten?

- a) In moderate quantity b) Too much c) Should not be consumed d) Once in a year

III. Choose the synonym of the word "fame" from the passage:

- a) Popularity b) Honesty c) carefully d) cruelty
