EMPOWERING EDUCATION THROUGH WORLDWIDE PARTNERSHIPS

"The world is a classroom, and collaboration is its greatest teacher."

Our school has opened doors to international perspectives, innovative learning, and cross-cultural experiences by connecting students with institutions worldwide. We cultivate curiosity, broaden horizons, and prepare young minds to excel as thoughtful, confident, and globally aware leaders. From welcoming students from France to visiting schools abroad and participating in events like the World Scholar's Cup Global Rounds in Bangkok and Tournament of Champions at Yale University, USA our students gain invaluable international exposure, shaping them into citizens of the world. We also strengthened our bond with countries like Russia, Israel, Australia, Germany, Qatar and Singapore through our seven RIDS (Recognition of International Dimensions in Schools) projects taken up by our students of grades PS-XII in the session 2024-25.

Creative Expressions through Visual & Performing Arts

"Creativity is the voice of the soul—quiet yet powerful enough to shape thought, move hearts, and illuminate the world."

To nurture their creative expression, our students were given a platform to captivate the audience through three remarkable performances. Buddha: Illuminating the Path of Compassion brought to life timeless teachings of peace and kindness; Chanakya: showcased strategic brilliance and ethical leadership; and Cultural Melange: A Kaleidoscope of India's Cultural Brilliance celebrated the richness and diversity of our heritage. Together, these performances fostered creativity, confidence, and the holistic growth of every young performer.
