### **Techies Club Activity SESSION 2025-26**

**Name of the Activity** : Scratch  
**Topic** : Different Geometrical Shapes in Scratch (any 3)  
**Date** : January 28, 2026  
**Class** : III  
**Activity In charge** : Ms. Nishi Gupta

#### **Glimpse of the Event**

#### ***Objectives:***

- *To introduce students about programming concepts in a visual and interactive manner.*
- *To foster the development of logical thinking skills.*

**Technology is anything that wasn't around when you were born. – Alan Kay**

Techies Club of MBS International School organised Scratch programming for the students of class III in which they were asked to create shapes using different blocks. In this, students designed the shapes using different blocks. The students created script using different blocks. They developed logical thinking as they broke down tasks into smaller steps to make their projects functional. The competition provides an engaging and educational experience, promoting both intellectual growth and teamwork.

The activity was designed to enhance technical skills. The students participated with great zest and zeal. The participants found the experience enriching as they learned a variety of blocks in Scratch.

#### **Judgment Criteria**

- Uses of blocks
- Uses of sprites and backdrop
- Originality

#### ***Result***

S.NO	Student Name	Class	Position
1.	Maneet Chawla	III Cosmos	I
2.	Dhruv Sharma	III Star	II
3.	Nivaan Mishra	III Cosmos	III
