

## YOUNG MINDS, SMART SOLUTIONS: AI GRIND ACTIVITY

**EVENT - Delhi AI Grind Activity: Exploring AI for Real-World Problems**

**DATE - 22 January 2026**

**CONDUCTED BY - Classes 6-11**

The **Delhi AI Grind Activity** was successfully conducted for students of **Classes VI to XI**, offering them an engaging platform to explore the practical applications of **Artificial Intelligence**. Students were divided into groups and encouraged to think critically by selecting a **real-life problem**, identifying its causes, and proposing **AI-based solutions** to address it.

Each group creatively presented their ideas on **A3 size sheets**, highlighting the problem statement, the role of AI, and the expected impact of their solution. The activity promoted **collaborative learning, analytical thinking, creativity, and innovation**, while also enhancing students' understanding of how AI can be used responsibly to solve real-world challenges.

Overall, the activity proved to be a **highly enriching learning experience**, helping students develop awareness of emerging technologies and their role in shaping the future.
