**A Glimpse of the Event**

*Objectives: To enable the learners*

- *to foster teamwork and strengthen understanding of various IT concepts.*
- *to encourage creative thinking and improve academic and presentation skills.*

**“Technology is best when it brings people together.”**  
**— Matt Mullenweg**

On 24 January 2026, the Quiz Club organized FLASH-O-MANIA Digital Poster Designing for the students of Class VIII. The activity was designed to blend creativity with technical knowledge, encouraging students to visually represent IT concepts through digital posters. Working individually or in teams, students used digital tools to design posters based on given IT-related themes within a specified time limit.

The activity provided a platform for students to think creatively, collaborate effectively, and apply their understanding of information technology in an engaging and innovative manner.

The students participated with great enthusiasm, showcasing originality, teamwork, and strong conceptual understanding through their poster designs.

The event concluded with teachers appreciating the efforts of all participants and motivating them to continue exploring technology through creative and academic pursuits. FLASHOMANIA proved to be a successful and inspiring activity, sparking curiosity and excitement among the students.

***Result***
