

# Gandhi Smarak With Sankalp

Sadhu Vaswani International School for Girls organized a joyful and meaningful excursion for the Sankalp students on 3 February 2026. The outing was thoughtfully planned to provide students with both learning and enjoyment in a supportive and engaging environment.

The day began with an infotainment visit to Gandhi Smarak, where students were introduced to the life, values, and ideals of Mahatma Gandhi. Through simple explanations, visual displays, and interactive discussions guided by teachers and instructors the students learned about truth, non-violence, and simplicity in an interesting and age-appropriate manner. This visit helped students connect historical learning with real-life values in an enjoyable way.

After the educational experience, the students proceeded to Nehru Park, where they enjoyed their lunch together in a pleasant and open setting. The visit also included supervised play and fun activities, allowing students to relax, laugh, and interact freely with their peers. These moments encouraged group bonding, cooperation, and emotional well-being.

The excursion proved to be a perfect blend of learning and recreation, leaving the students refreshed, happy, and enriched with memorable experiences and meaningful lessons.
