## Activity: Dishing Out Destinations

Recognition of International Dimensions in School Project\*

\*Activity No. 2 (In house Activity)\*

\*Activity Title: Flavours without Borders: A Taste Journey across India, Brazil, USA and Egypt\*

\*Activity: Dishing Out Destinations\*

On October 28, 2025, a PowerPoint presentation was showcased during the morning assembly, introducing the students of Classes III - V to the diverse and rich culinary traditions of the four focus countries — India, Egypt, Brazil, and the USA. The presentation helped students appreciate the cultural significance and unique flavours that represent each nation.

They then explored the traditional dishes of these countries.

Subsequently, on October 31, 2025, students engaged in a hands-on mapping activity, where they individually located and labelled the four countries on a Physical World Map. Alongside, they marked the popular traditional dishes associated with each country. The activity not only enhanced students' geographical awareness but also encouraged them to celebrate cultural diversity through food — fostering global understanding and respect for different traditions.
