

WORLD AUTISM AWARENESS DAY

Date : 2 April, 2026

Organised by : ITL PUBLIC SCHOOL

Classes : I-XII

"Every person is a unique puzzle piece in the mosaic of humanity, each with their own shape, color, and brilliance."

The World Autism Awareness Day, celebrated annually on 2 April, is marked by the theme ***"Autism and Humanity – Every Life Has Value."*** The day recognises and honours the abilities, dignity, and potential of autistic individuals as valued members of our shared human community.

At **ITL Public School**, ongoing sensitisation initiatives for students, parents, and educators promote awareness, understanding, and acceptance of neurodiversity. Through these initiatives, the school strives to create a supportive and inclusive environment where respect, empathy, and equal opportunities are embedded in everyday practices.

The occasion reaffirms that autistic individuals are integral to our collective progress and to building a society where everyone thrives. It encourages the community to nurture a culture in which differences are respected, dignity is upheld, and every autistic person is empowered to realise their full potential.
