

REPORT OF ECO CLUB ACTIVITY
SESSION 2026-2027

Name of the Activity : **Plantation Drive**
Day & Date : **Wednesday, 22 April 2026**
Class : **VII**
Teacher In charge : **Ms Kumari Shalini**
Activity In charge : **Ms Kumari Shalini**

A Glimpse of the Event

Objectives: To enable the learners to

- describe the importance of trees in maintaining ecological balance, reducing pollution, and supporting biodiversity.
- develop a sense of responsibility and a proactive attitude toward protecting and nurturing green spaces within the school and community.
- demonstrate how to properly plant saplings and care for them by understanding basic requirements such as sunlight, water, soil, and space.
- plan and execute the campaign and enhance their ability to work in teams, delegate tasks, and follow a common goal.
- analyze the effects of deforestation and unplanned urbanization on climate change and local weather patterns.

“Someone’s sitting in the shade today because someone planted a tree long time ago”
— Warren Buffett

Glimpse of the Event

A plantation drive was organized in the school premises of **MBS international School** for **Grade 7** with the objective of promoting environmental awareness and encouraging students to take responsibility for nature. The event was conducted with great enthusiasm and saw active participation from students across all the sections of Grade 7th.

The program began with a short inaugural speech by the Teacher In charge, who emphasized the importance of trees in maintaining ecological balance and combating climate change. Students were informed about the harmful effects of deforestation and the urgent need to increase green cover. A variety of saplings such as neem, peepal, mango, and gulmohar were arranged for planting.

Participants were divided into groups and guided by teachers on proper planting techniques.

They actively engaged in digging pits, placing saplings, and watering them. The school

gardener also demonstrated how to take care of the plants to ensure their healthy growth. Alongside the plantation activity, students displayed posters and raised slogans highlighting the importance of saving trees and protecting the environment.

The drive aimed not only at planting trees but also at instilling a sense of environmental responsibility among the participants. It encouraged teamwork and fostered a spirit of cooperation. Students pledged to nurture the plants and contribute towards keeping their surroundings green and clean.

Overall, the plantation drive was a successful and meaningful initiative. It created awareness about environmental conservation and inspired everyone to take small yet impactful steps towards a greener and healthier future.
