Day & Date : Wednesday, 22 April, 2026
Class : IX & X
Activity In charge : Ms. Parul Trivedi
Teacher In charge : Ms. Nancy

A Glimpse of the Event

Objectives: To enable the learners:

- to motivate the students to keep their surroundings green and clean by undertaking plantation of trees.
- to promote environmental sustainability, improve air quality, restore ecosystems, and create green spaces in communities.

A plantation drive was organized in our school on April 22, 2026 with the aim of promoting environmental awareness and encouraging students to contribute towards a greener future. The event was conducted in the school premises and witnessed enthusiastic participation from students, teachers, and staff members.

Students were sensitized with the importance of trees in maintaining ecological balance and combating climate change. Students were encouraged to take responsibility for nurturing the plants and protecting the environment. Various types of saplings and flowering plants, were planted in the school garden and along the boundary areas. The school gardener guided students on proper planting techniques. The drive not only enhanced the greenery of the campus but also instilled a sense of responsibility and teamwork among students. It served as a practical lesson on environmental conservation and the importance of sustainable living.

The plantation drive was a great success and left a positive impact on everyone involved. Such initiatives should be conducted regularly to create awareness and contribute towards a healthier environment.
