## 1. Exploring Collective Nouns!

Imagine a world where a swarm of bees bought sweet honey, a school of fish splashed in the river and a pack of wolves arrived from the far side of the forest.....

Writing a story is like opening a magical door where your ideas come alive — forests whisper secrets, animals become heroes, and every group has a story to tell.

A story can take you anywhere-into a jungle with a herd of elephants, across the sky with a fleet of planes, or even into a classroom full of fun! Write a short funny story (6–8 lines) using at least 5 collective nouns and illustrate it. (To be done in portfolio file.)

Example starter:

*One day, a flock of birds flew over a forest where a herd of elephants lived.....*

## 2. Homophone Fun Time!

Homophones are words that sound the same but have different meanings and spellings. Learning them is important for better communication. It builds vocabulary and improves understanding of sentences.

Make colourful craft cards using at least 5 pairs of homophones.

(To be done on coloured A4 sheet.)

### 3. Watch, Imagine & Enjoy

Prepare the activity (of 1.5 to 2 minutes) on the character allotted to your house. Use a variety of adjectives and a handmade prop to make your presentation lively, and exciting.

(This activity will be assessed as a speaking activity after the school reopens.)

**Satya House:** Bantur (the bear), the Lynx

**Shakti House:** The Wolf Pack, the Eagle

**Shanti House:** The Tortoise, the Rabbit
