

## MEDICAL OBSERVERSHIP PROGRAM

### Zulekha Hospital, Dubai

[Medical Observership Program](#) at Zulekha Hospital, Dubai.

This 20-hour Medical Observership Program offers students aged 13–18 immersive clinical exposure in a real hospital environment at Zulekha Hospital. Students will observe across multiple medical specialties, gain insight into real patient care pathways, and experience how healthcare teams operate in a professional clinical setting.

#### Key Features:

- 20-hour structured in-person hospital experience over 4 days
- Exposure to multiple clinical departments and specialties
- Doctor-led mentorship and guided observation
- Understanding of patient care, ethics, and healthcare systems
- Certificate upon completion to support future medical applications
