

## ITL PUBLIC SCHOOL SOCIOLOGY HOLIDAY HOMEWORK-XII

This holiday homework is designed in a way that helps you to explore sociological theories using computational thinking ie. breaking problems into parts, finding patterns, creating simplified models, and designing step-by-step procedures or representations. Use examples from Marx and Durkheim to connect classical theory with data and logic.

### Research project

Students of Class XI are requested to submit a Research based Project on any one **Contemporary Social Issue**.

You may choose any of the following topics:

- Urban migration and social solidarity.
- Social media and community life.
- Religion and community cohesion.
- Crime and social order.
- Environmental issues and social responsibility.
- How unemployment affects youth confidence.
- How migration changes family life.
- How social media affects peer relationships.
- Consumerism and social status

### Instructions for the project-

(a) Conduct interviews, Surveys and then pen down your observation.

(b) With the help of your presentation prepare a beautifully decorated project file. (This should be hand written. Typed or printed sheets will not be considered)

(c) Project file should be made in the given sequence-

- Cover page with Title
- Research Question- Decompose the topic into at least 5 concrete research questions or indicators
- Introduction of the topic- 10- 15 pages
- Rationale of study

- Why did you choose the topic?

- Objectives of your study

### • **DATA COLLECTION-**

**SECONDARY DATA-** Review of Literature: it should be in the following sequence:
