

MOTHERS DAY CELEBRATION

“A mother’s love is the first blessing a child receives and the greatest gift of life.”

ITL Public School celebrated Mother’s Day on 8 May 2026 with immense enthusiasm and heartfelt warmth. The special celebration was organised to honour the unconditional love, care, and dedication of mothers while strengthening the beautiful bond shared between mothers and their children.

The event was filled with joy and excitement as mothers of the students of Classes I to V visited the classrooms and enthusiastically participated in a variety of engaging activities with their wards. Delightful dance performances, melodious songs, and an elegant ramp walk by mothers and children together added vibrance and charm to the celebration, creating a truly memorable atmosphere. Fun-filled activities such as *Spin the Wheel* brought excitement to the occasion, while the *Recognise the Voice* activity filled the environment with laughter and smiles as mothers identified recorded voice clips of their children. Parents also shared heartfelt experiences and cherished memories, making the celebration emotional and meaningful.

Adding to the spirit of gratitude and creativity, students across Classes VI to X participated in thoughtfully curated activities dedicated to their mothers. The students of Class VI designed beautiful flower cards adorned with aesthetic petals carrying heartfelt gratitude messages. This activity encouraged them to express their emotions creatively while understanding the importance of appreciation and thankfulness.

Class VII students decorated personalised memory jewellery boxes filled with notes, drawings, photographs, and treasured memories. The activity provided students with an opportunity to reflect upon and celebrate their special bond with their mothers through meaningful keepsakes.

The young ITLeens of Class VIII transformed simple glass jars into elegant candle holders embellished with heartfelt messages dedicated to their mothers. The activity nurtured artistic expression and enabled students to convey their love and emotions in a thoughtful and creative manner.

Students of Classes IX and X designed poignant and beautifully crafted cards expressing their love and gratitude for their mothers. It was a delight to witness the young ITLeens deeply engrossed in creating these tokens of affection, as the colours of their emotions came alive on paper through vibrant hues and creative designs. With smiles on their faces, admiration in their eyes, and passion in their skilful hands, the students truly crafted magic through their artwork.

Students of Class XI and XII beautifully designed cards for their mothers. They had put their heartfelt sentiments into it. The cards were designed with full creativity and resplendent notes. The students were quite happy and excited to show their love to their mothers.

The event concluded on a joyful and heartwarming note, leaving everyone with cherished memories and a deeper appreciation for the unconditional love, strength, and support that mothers bring into their children’s lives every day.
