DPSKP-V/2026-27/Circular/035

CIRCULAR

Dear Parents,

Greetings!

To further support our learners in achieving academic excellence, we will be conducting the **Diagnostic Tests** as part of our ongoing efforts to enhance learning outcomes. These assessments are designed to evaluate students' conceptual understanding and critical thinking skills, providing valuable insights to help them strengthen their learning.

Diagnostic Tests for Class V

The Diagnostic Tests will be conducted for Class V in **English, Math, and Science** in the month of Aug. These tests aim to assess students' conceptual understanding and identify learning gaps within the school syllabus.

To help students perform better in these assessments, we have designed a comprehensive support plan, which includes:

- **Zero Period Sessions** for additional practice and clarification of misconceptions
- **Weekend Practice Worksheets via Google Forms** for reinforcement

We would like to emphasize that the **forms being shared for practice are extremely important and must be attempted regularly**, as they will greatly support students in strengthening their understanding and improving their performance.

We encourage all learners to participate actively, as these assessments offer valuable insights into their academic progress. We also request parents to ensure that assigned work is completed and submitted on time.

For any queries, please feel free to contact the Academic Coordinator – Ms. Ritu Das at ritu.das@dpskp.com.

Warm regards,

Principal
