

## **ITL Public School Organises an Enriching Educational Excursion to Jim Corbett, Bhimtal and Nainital**

ITL Public School organised an educational excursion for the students of Grade XII to Jim Corbett, Bhimtal and Nainital from 22nd May to 25th May 2026. The four-day journey offered a perfect blend of experiential learning, environmental awareness, adventure, recreation and camaraderie, providing students with an opportunity to learn beyond the confines of the classroom.

The journey commenced with great enthusiasm as students departed for Jim Corbett National Park, one of India's oldest and most celebrated wildlife reserves. A major highlight of the trip was the visit to the Corbett Museum, where students gained valuable insights into the life and legacy of the legendary conservationist, hunter-turned-naturalist Jim Corbett. The museum provided a deeper understanding of his immense contribution towards wildlife conservation and the protection of endangered species.

An exciting early morning jungle safari at Jim Corbett National Park proved to be a memorable experience for all. Traversing through the dense forests and grasslands in open jeeps, students had the opportunity to observe the rich biodiversity of the region. Sightings of elephants, various species of deer, exotic birds and other wildlife in their natural habitat generated immense excitement among the participants. The safari also sensitised students towards the importance of ecological balance, environmental conservation and sustainable coexistence with nature.

The educational excursion continued with a picturesque uphill journey to Bhimtal, followed by a full-day visit to the enchanting hill station of Nainital. Students explored several prominent attractions including Snow Point, Cave Garden, Naina Devi Temple, Mall Road and the beautiful lakes of Nainital, Bhimtal and Naukuchiatal. These visits enabled students to appreciate the geographical diversity, cultural heritage and natural beauty of the Kumaon region. The serene lakes, verdant hills and pleasant weather provided a refreshing respite while simultaneously enhancing students' understanding of the region's ecological significance.

Apart from sightseeing, the trip also offered numerous opportunities for social interaction and team building. Students enjoyed quality time with their peers, strengthening bonds of friendship and cooperation. The evenings were filled with fun and laughter, with a lively DJ and dance session at the hotel emerging as one of the most cherished moments of the excursion. The event allowed students to unwind, showcase their talents and celebrate the spirit of togetherness.

Throughout the journey, students displayed exemplary discipline, responsibility and adaptability. Living and travelling together encouraged them to develop essential life skills such as independence, decision-making, teamwork, time management and mutual respect. The experience also fostered resilience and self-confidence as students navigated new environments and situations.

The excursion concluded on a highly positive note, leaving students with unforgettable memories and valuable learning experiences. More than just a recreational outing, the trip served as an important platform for holistic development, nurturing curiosity, environmental consciousness and interpersonal skills. It was indeed a rewarding and enriching experience that successfully combined education, adventure and recreation while reinforcing the school's commitment to experiential learning.
