

WORLD EARTH DAY

ACTIVITY: Paper Bag Making Activity

DATE: 22 April 2026

CONDUCTED BY: Classes III-V

To celebrate **Earth Day**, students of Classes 3, 4, and 5 enthusiastically participated in a creative and eco-friendly **Paper Bag Making Activity**. The initiative aimed to raise awareness about the harmful effects of plastic pollution and encourage the use of sustainable alternatives in everyday life.

Using old newspapers and recycled materials, students designed and crafted paper bags with great creativity and enthusiasm. They further enhanced their creations with colourful drawings, thoughtful messages, and impactful slogans promoting environmental conservation and responsible living.

The activity provided students with a hands-on opportunity to understand the importance of reusing and recycling materials while developing their artistic and creative skills. Through this engaging experience, they learned that small individual actions can contribute significantly towards protecting the environment.

The Earth Day celebration successfully instilled environmental awareness and inspired students to adopt eco-friendly practices, reinforcing the message that every effort counts in creating a cleaner, greener, and more sustainable future.
